Environmental & Sustainability Policy

As a company, S.W.D. Ltd are committed to help to protect and enhance local and global environments and ensure that activities are carried out in a sustainable way.

To meet the policy aim we endeavour to:

- Be aware of all new environmental legislations and regulations
- Comply with all environmental legislation and regulations
- Minimise energy use and its associated CO2 emissions
- Maximise the use of renewable energy sources where possible
- Minimise the generation of waste
- Maximise the re-use of materials and products
- Maximise the use of recycled materials and products
- Maximise of the recycling of materials and products
- Minimise raw material consumption
- Maximise the use of material from renewable sources
- Minimise the use of polluting forms of transport
- Assess the environmental impacts of all working practices and product manufacture
- Assess the whole life environmental performance of all purchases
- Maximise the use of local products and workforce
- Minimise the use of water
- Ensure that design and construction is undertaken in a manner compatible with sustainable development

To further the aims of the policy we will:

- Provide adequate environmental training for all staff
- Assess the environmental performance of all suppliers and use only those from our approved list who we believe share our values
- Develop a set of environmental targets and action plans
- Review environmental targets and action plans
- Review this environmental policy and its action plans with a view to continuous improvement
